

# Confined Space Safety

At

## Broad Creek Public Service District, Hilton Head, SC

**Date:** June 26, 2008

**Time:** 8:30 A.M. to 3:30 P.M. (6 Contact Hours)

### Who's presenting?

**Jim Matthews:** Your instructor is president of On Line Environmental, Inc. Jim is a graduate of The Citadel and has worked in plant and system operations since 1976. He holds a SC A license in Water Treatment, Biological and Physical/Chemical Wastewater Treatment. He has been teaching and assisting operators for public and private organizations for the last 21 years. Jim's teaching style encourages class participation while carefully explaining concepts essential to understanding the many topics associated with distribution system operations, maintenance and management.

### Who should attend and why?

- **Trainees** seeking more understanding of confined space safety and preparing for certification exams
- **Operators** preparing for all levels of operator certification exams
- **Operators** wishing to improve their skills and understanding of confined space safety
- **Operators** seeking continuing education to be applied toward license renewal
- **Managers** seeking to improve their technical understanding
- **Anyone** wishing to further their understanding of confined space safety

**Course Description:** This 6-hour course will cover topics essential to the understanding of confined space safety as applied to water and wastewater operations. The class format is structured, yet informal, encouraging learning and class participation.

**Course Objectives:** At the end of the course, the participant will be able to

1. Identify a confined space according to the OSHA definition.
2. Identify hazards associated with confined spaces encountered in the water and wastewater fields.
3. Identify conditions that determine the classification of a permit-required confined space.
4. List and apply equipment used in the safe entry of confined spaces found in the water and wastewater fields.
5. Define the properties of a hazardous atmosphere.
6. Describe the proper use of energy and hazard isolation techniques.
7. Describe rescue techniques in confined spaces.
8. List common confined spaces found in the water and wastewater fields.
9. Identify the components of a confined entry permit.
10. Locate regulations pertaining to confined space safety.
11. Describe the events and safety issues associated with confined space accidents as described in case studies.
12. List measures taken to avoid confined space accidents.

**A record of your attendance will be kept on file and a certificate of completion will be issued to each attendee.**

Registration Fee: \$125.00

Contact Jim or Linda at 803-939-4983 or email Jim at [jmatthews@oleinc.com](mailto:jmatthews@oleinc.com) for directions to the class location.
