

basic BIO. WASTEWATER TREATMENT

At

West Columbia, SC at the Real Estate School of SC (I-26 and Hwy 378)

Dates: July 23, 24, 30, 31, 2009 (28 Contact Hours) **AND** August 6, 7, 13, 14, 2009 (28 Contact Hours)

This class will be given twice; please indicate on the registration form which one you will attend.

Time: 8:30 A.M. to 4:30 P.M.

Who's presenting?

Jim Matthews: Your instructor is president of On Line Environmental, Inc. Jim is a graduate of The Citadel and has worked in plant and system operations since 1976. He holds a SC A license in Water Treatment, Biological and Physical/Chemical Wastewater Treatment. He has been teaching and assisting operators for public and private organizations for the last 22 years. Jim's teaching style encourages class participation while carefully explaining concepts essential to understanding the many topics associated with wastewater system operations, maintenance and management.

Who should attend and why?

- **Trainees** seeking more understanding of system operations and preparing for certification exams
- **Operators** preparing for D and C level biological wastewater operator certification exams
- **Operators** wishing to improve their skills and understanding of system operations
- **Operators** seeking continuing education to be applied toward license renewal
- **Managers** seeking to improve their technical understanding
- **Anyone** wishing to further their understanding of biological wastewater treatment

Course Description: This 28-hour course will introduce the learner to basic concepts of biological wastewater treatment. The class materials have been selected to assist the learner in preparation for the D and C-level Biological Wastewater Operator exams. Presentation styles will include lecture, demonstration, PowerPoint slides, video, interactive competitions, discussion, workbook exercises and class participation.

Course Objectives: This course is designed to assist the operator in preparing for the South Carolina "D" and "C" Biological Wastewater Certification Exam. At completion of this course, the operator should be able to:

1. Perform math functions such as basic operations, operations with fractions, decimals, conversions, percentages and simple problem-solving.
2. Perform more advanced math functions such as problem-solving with equations.
3. Define terms common to biological wastewater treatment.
4. List wastewater characteristics of various types of industries.
5. List and describe the various biological treatment processes and their operations.
6. Describe the various support systems and their components associated with biological treatment processes.
7. List and describe the lab analyses associated with these processes and the proper lab techniques and safety precautions involved.
8. Describe maintenance procedures associated with the biological treatment plant and equipment.
9. Describe the safety procedures associated with biological plants and equipment.

Please bring a calculator to class; workbook, handouts, lunch and pens will be provided.

A record of your attendance will be kept on file and a certificate of completion will be issued to each attendee.

Registration Fee: \$425.00 (includes lunch each day)
